See you!

#BidaAngHanda #TsunamiDay

Civil Defense - CBTS

**WORLD
TSUNAMI
AWARENESS
DAY**
5 NOVEMBER

Half of the year has passed since the world experienced a new face of disaster through the spread of the Coronavirus Disease 2019 (COVID-19) pandemic. The Philippine government, in its effort to combat the said pandemic mounted a multi-sectoral response to the COVID-19. While these responses are being prioritized, the Philippine government gradually adapts to the new normal by ensuring the continuity of its public services through the providing alternative strategies in disaster risk reduction and management.

The NDRRMC through the Office of Civil Defense (OCD), for this purpose, recently conducted the first ever online Nationwide Simultaneous Earthquake Drill with the advocacy to strengthen earthquake disaster preparedness during the COVID-19 Pandemic.

For the Fourth Quarter, NSED sets to continue with the alternative strategies utilized for the previous quarter to champion a safer, adaptive and tsunami resilient community in the new normal as part of the observance of the World Tsunami Awareness Day. Strategies include the hosting of the #BidaAngHanda Online Quiz Bee, Webinar on Earthquake Preparedness, Online Ceremonial Pressing of the Button, Virtual Simulation Exercise on Communication and Coordination in Mati City, Davao Oriental, and a series of Information, Education and Communication (IEC) advocacy.

In these trying times, strengthening earthquake and tsunami disaster preparedness shall be the advocacy of the Fourth Quarter Nationwide Simultaneous Earthquake Drill.

**Fourth Quarter Nationwide Simultaneous Earthquake Drill
Webinar on Tsunami Preparedness
November 10, 2020 10AM**
