Through these digitization initiatives, the CSC aims to thrive and remain adaptable in an ever-changing world of modernized government services.</p> <p>The primary outcome of this initiative, the Digitization of HR Records (Service Cards), will seamlessly integrate with the Online Appointment Processing System (OAPS). This integration will streamline the evaluation and attestation of appointments for civil servants within the government. By establishing robust systems and databases connected via API integration, CSC will enable swift and efficient verification processes, allowing for the seamless search, matching, linking, and retrieval of appointment-related documents, including employee service cards.</p> <p>Additionally, this project will safeguard and preserve permanent records such as government employees' service cards, mitigating potential risks of physical hazards and natural disasters. It will bolster the CSC's appointment processing system, enhancing responsiveness, and providing clear evidence of ongoing process improvement. The service cards will be transformed into a digital format accessible via a cloud-based Enterprise Content Management (ECM) platform, provided by the selected vendor for this project.
